CORPORATE DEVELOPMENT & STRATEGIC INVESTMENTS | M&A | TRANSACTION DILIGENCE | CAPITAL ALLOCATION
San Francisco, CA | shiv-corpdev@umich.edu | +1 (202) 630-3211 | [linkedin.com/in/beastofbayarea](https://www.linkedin.com/in/beastofbayarea)

EXECUTIVE SUMMARY

Corporate development and strategic-investments leader with 10+ years across **M&A**, **transaction diligence**, venture-style underwriting, **capital allocation**, institutional fundraising and post-investment execution in AI, FinTech and regulated markets. Combines **financial modeling**, commercial and **technical diligence**, **unit economics**, investment-committee communication and value-creation planning. Brings deal screening, transaction structuring, **integration** planning, **portfolio governance** and **value creation** from thesis through **post-close** execution.

EDUCATION

University of Michigan, Stephen M. Ross School of Business - MBA, Strategy, Technology & Operations | 2022 - 2024 | Wolverine Venture Fund | Zell Lurie Institute

London School of Economics and Political Science - Executive Coursework, Economics, Markets & Public Policy | 2024

Indian Institute of Technology - B.Tech, Computer Science & Engineering | 2010 - 2014

PROFESSIONAL EXPERIENCE

Amazon Web Services (AWS) - Internal Ventures

Jul 2024 - Present | San Francisco, CA

Director, Corporate Development & Strategic Investments - Generative AI

- Led end-to-end **M&A / strategic investment diligence** for an **\$85M** potential agentic-AI **transaction**, owning **buy-vs-build** analysis, market and technical **diligence**, **integration** sequencing, operating-assumption review and **post-close** roadmap planning for executive decision-makers.
- Built a venture-style investment case for a GenAI shopping assistant using bottom-up market sizing, a **\$100M+** GMV sensitivity model and tornado analysis; secured **\$5M** in internal venture funding with milestone gates tied to adoption, trust, engagement and unit economics.
- Authored the executive PR-FAQ and financial sensitivity model, then developed the **value-creation** plan that improved gross margin from **55% to 81%** by consolidating model spend and optimizing compute economics.
- Directed strategy for a managed agent platform connecting foundation models to private enterprise data, prioritizing access controls, auditable action traces and policy-aware generation to support scalable adoption in regulated production workflows.
- Structured **transaction** protections and **integration** economics around ROFR/ROFN rights, overlapping model/tool spend and milestone-gated capital; translated technical dependencies into an executive deal thesis, **integration** plan and **value-creation** roadmap.
- Established portfolio KPIs and follow-on funding gates across adoption, brand trust, hallucination risk, engagement and unit economics, linking post-investment governance to **25%** adoption, **55% to 70%** brand favorability, **2.8%** hallucinations and **+15%** session depth.
- Built a sector and target-screening thesis across GenAI, enterprise software, data infrastructure and model economics, comparing TAM, competitive moat, monetization, scalability, technology risk, strategic control and return potential to prioritize acquisition and strategic-investment opportunities.

Rakuten Group, Inc. - AI & Commerce

Jun 2023 - Dec 2023 | Tokyo, Japan

Corporate Development & Strategic Investments - MBA Intern

- Evaluated **strategic investments** and partnership structures across payments, commerce and AI using **commercial diligence**, take-rate analysis and ecosystem economics for a platform spanning **70+** business units and **50,000+** merchants.
- Stress-tested a proposed **\$50M** DTC expansion with a **10,000**-iteration Monte Carlo model of CAC, churn and payback; downside-tail evidence halted the plan, avoided an estimated **~\$20M** loss and redirected capital to a higher-return partnership model.
- Assessed AI-platform build-versus-partner economics, monetization, inference cost, data moat and workflow adoption; operating evidence included **40%** adoption, **+15%** conversion and listing time reduced **45** to **12** minutes.
- Closed a cross-device attribution gap with Finance, Analytics, Product and Merchant teams, restoring **transaction** continuity and revenue attribution so partnership and investment cases used cleaner operating data and more reliable commercial-**diligence** evidence.

The D. E. Shaw Group - Capital Formation

Jul 2016 - Dec 2019 | New York, NY & Hyderabad, India

Vice President, Investment Strategy

- Originated and closed a **\$500M** institutional mandate, leading allocator targeting, **diligence** defense, relationship coverage and final investment-committee negotiation during peak Brexit uncertainty.
- Structured a performance-aligned risk-reversal fee model that generated **~\$25M** in Year-1 performance fees, translating quantitative strategy, market structure and risk controls into an investor-grade **underwriting** narrative.
- Built deal and investment infrastructure that cut data consolidation **48** to **6** hours, supported a **\$25M** Series B close one week ahead of competitors and helped a real-time risk platform unlock **~\$85M** in regulatory capital.
- Established institutional-grade investment governance through quarterly LP reviews, written investment memos, pre-registered success criteria and cross-functional **diligence** with technical, legal and risk teams.
- Managed a multi-year LP relationship and **diligence** process, using live risk-monitoring demonstrations and quantitative risk controls to address allocator objections, strengthen investment conviction and support repeat institutional capital formation.

McKinsey & Company - Digital M&A

Jul 2014 - Jun 2016 | London, UK

Associate, Commercial Due Diligence & FinTech Strategy

- Advised private-capital, FinTech and retail clients on commercial due **diligence**, market entry and Digital **M&A**; built quantitative models supporting **\$50M+** revenue and capital-allocation decisions with **~95%** forecast accuracy validated through hindcasting.
- Built the investment case for a Southeast Asian digital bank, defining market sizing, MVP scope, acquisition economics and regulatory alignment; scaled to **100,000** active users in **90** days with CAC below **\$10** and **2.4%** NPL.
- Restructured institutional digital-asset pricing around instant credit, maker-taker tiers and contribution-margin economics; supported volume growth **\$215B** to **\$371B** and recurring revenue **\$45M** to **\$213M**.
- Advised executives on **\$100M+** capital-allocation decisions, synthesizing market, regulatory, operating and technology risks into board- and investment-committee-ready scenarios, decision narratives and investment theses.
- Ran TAM sizing, customer segmentation, competitive benchmarking, scenario analysis and downside cases to pressure-test growth assumptions and translate market evidence into commercial-**diligence** findings, **valuation** inputs and investment-committee recommendations.
